5 Min Post (No Community-specific Changes) *****

1. Open the slide / video.
2. File → Download as PNG / Download mp4

Topic	Post Link
Omicron Video - Masking (Public Health Collaborative)	mp4 HERE Masking is still an important way to interrupt the transmission of COVID.
Omicron Video - Vaccinations Slow Transmission (Public Health Collaborative)	mp4 HERE Getting vaccinated not only prevents you contracting COVID, it makes you contagious for 3-6 days instead of the 13-18 days that someone unvaccinated is contagious.
Omicron Dictionary Basic	Slide HERE See Speakers Notes for Post Text
Omicron Spreading Rapidly	Slide HERE
Omicron Severity	Slide HERE
Omicron - Vaccine Immunity Better than Immunity from previous Infection (Public Health Collaborative)	png HERE Getting vaccinated and getting a booster provides better protection against Omicron than relying on immunity from a previous COVID infection. Omicron is spreading quickly. Be safe!
