

Social Media: Monoclonal Antibodies

The social media posts here are based on [THIS Monoclonal Antibodies Fact Sheet](#) created for MTPHI through the CDC Communications partnership. Feel free to use the Fact Sheet as you would like - maybe in your waiting room or to some of your partners who want to know more.

You are welcome to modify these posts, **but if you make substantial changes**, please remove the MTPHI logo or check us at info@mtphi.org.

Facebook

- If you aren't sure how to post to Facebook, we've got instructions [HERE](#).
- You can also call or text Kirsten Krane at 406-838-3485.

5 Min Post (No Community-specific Changes) *****

1. Open the slide.
2. File → Download as PNG

Topic	Post Link
What are monoclonal antibodies?	Slide HERE See Speakers Notes for Post Text
<p>OR - you could do this 2 slide post if you're feeling adventurous! To do this, just add both PNGs/slides to the same post. Drop the "What are monoclonal antibodies" into the post first so that it appears above the "Who can get monoclonal antibodies".</p> <p>We recommend not posting "Who can get monoclonal antibodies?" alone as people might not have enough context without the first slide explaining what monoclonal antibodies are.</p>	
What are monoclonal antibodies? AND Who can get monoclonal antibodies?	Slide HERE See Speakers Notes for Post Text Slide HERE
